Dear Members,

It is our pleasure to invite you to the 80th Annual Meeting of High West Energy, Inc. on Thursday, June 22, 2017, at our headquarters in Pine Bluffs, Wyoming (6270 County Road 212). The annual meeting is a time for members to celebrate the cooperative way of doing business, enjoy good food, entertainment, and conduct the important business of the Cooperative.

We are blessed to live and work in the communities we serve by donating power reliability and reduce weather-related outages. In addition to making system improvements, your cooperative was extremely involved and committed to the communities we serve by donating our time, talents, and monetary contributions in a wide variety of areas. As you will see in the following pages, the investments we made were not just centered around poles and wires. Just like you, our Co-op employees live, work, and play in these communities. This makes you our neighbors and friends, not just a customer in a distant city. We take great pride in that fact and work even harder to ensure High West Energy remains a community oriented business.

High West Energy, Inc. on Thursday, June 22, 2017, at our headquarters in Pine Bluffs, Wyoming (6270 County Road 212). The annual meeting is a time for members to celebrate the cooperative way of doing business, enjoy good food, entertainment, and conduct the important business of the Cooperative.

We are blessed to live and work in the communities we serve by donating power reliability and reduce weather-related outages. In addition to making system improvements, your cooperative was extremely involved and committed to the communities we serve by donating our time, talents, and monetary contributions in a wide variety of areas. As you will see in the following pages, the investments we made were not just centered around poles and wires. Just like you, our Co-op employees live, work, and play in these communities. This makes you our neighbors and friends, not just a customer in a distant city. We take great pride in that fact and work even harder to ensure High West Energy remains a community oriented business.

In 2016, we invested almost $5,000,000 in the Co-op’s distribution system to keep pace and prepare for anticipated future electric demand. Teams across HWE’s four operating districts constructed or rebuilt almost 56 miles of line (out of 3,679). Additionally, we replaced another 750 poles (we own approximately 75,000) and performed preventative maintenance on our line devices (breakers, regulators, reclosers, etc.). These efforts will result in better power reliability and reduce weather-related outages. In addition to making system improvements, your cooperative was extremely involved and committed to the communities we serve by donating our time, talents, and monetary contributions in a wide variety of areas. As you will see in the following pages, the investments we made were not just centered around poles and wires. Just like you, our Co-op employees live, work, and play in these communities. This makes you our neighbors and friends, not just a customer in a distant city. We take great pride in that fact and work even harder to ensure High West Energy remains a community oriented business.

We had a great number of other accomplishments throughout the year. We concluded the year financially strong with operating revenues of $44,617,187, and met our equity management goals. Our net margins, which includes a profit generated by our subsidiary (dba High West Wiring and High West Digital Solutions), was $2,970,405.

You will see throughout this report that each and every one of us at HWE has a role in serving you. Thank you for your membership in our Cooperative. We look forward to another year of fulfilling our mission to provide our member-owners safe, reliable and competitively priced energy and services that meet the needs of the membership.

Cooperatively,

Ed Prosser

This annual meeting of the members of High West Energy, Inc., will be held at High West Energy headquarters in Pine Bluffs, Wyoming at 6:30 p.m. on Thursday, June 22, 2017 to take action upon the following matters:

1. The reports of officers, directors and committees.
2. The election of two directors, one each in Districts 12 and 15.
3. All other business which may come before the meeting, or any adjournment or adjournments thereof.

In connection with the election of two directors scheduled for this meeting, the following members have been nominated by the Nominating Committee, which is appointed by the Board of Directors of the corporation, pursuant to the bylaws:

District 12: Gary Smith
District 13: Jim Taylor
District 15: Dan Acheson

DATED this 30th day of March, 2017.

Respectfully,

Dan Acheson
Secretary, Board of Directors

High West Energy, Inc.
Kimball, Nebraska | November 5, 2016

The 70th Annual Meeting of the members of High West Energy, Inc., and of the Kiibmall High School in Kiibmall, NE at 1:00 p.m. Saturday, November 5, 2016 following registration, lunch and a craft show. The meeting was called to order by President Ed Prosser. President Prosser welcomed everyone in attendance and announced the following officers, employees, veterans and invited speakers.

The invocation was given by Dave Crouse, Chief of Police for Kimball, Nebraska.

The reading of the 2016 Notice of Annual Meeting was approved by Ron Lopez, President, Vice President, General Counsel and General Manager for High West Energy, Inc., whose firm has represented the cooperative since the 1990s. It was determined that a quorum was present and that the business of the meeting could move forward. It was moved, seconded and approved to dispense with the reading of the 2015 annual meeting minutes.

ELECTIONS

Ron Lopez presided over the election. The business of the meeting was to take action upon the following matters:

A. The Nominating Committee submitted the name of Jerry Burnett from District 14, Jamie Porter from District 16, and Kevin Thomas from District 17 as nominees for three-year terms.

B. Bylaw changes and changes supported by the member survey results and the new services we offer, Renewables, electric water heaters and the Water-Wizer Program. Also discussed were off-peak pricing options, energy consumption, whole house monitoring and security lights. He also noted last year was noteworthy for safety and lower outage times.

C. General Manager Brian Heitchof discussed the High West Digital Solutions division and the services they offer. He also discussed the High West Mining (HWDS) division and their recent successes and growth.

YOUTH TOURS

Kimball, Nebraska | November 5, 2016

The member’s name that was drawn randomly for the progressive jackpot was not in attendance at the amount in 2017 will be $1,000.

DATED:  This 5th day of November 2016.

Dan Acheson, Secretary of the Board

From Cheyenne and Colorado:
Head east on I-80, take exit 401. Turn left onto Lincoln Hwy.
Turn left onto W 6th Street. Turn left onto I-80 Service Rd. Turn
right onto County Rd 212 and cross railroad tracks. Turn right
into the High West Energy property.

From Sidney:
Head west on I-80, take exit 401. Turn right onto Lincoln Hwy.
Turn left onto W 6th Street. Turn left onto I-80 Service Rd. Turn
right onto County Rd 212 and cross railroad tracks. Turn right
into the High West Energy property.

Just a Heads-up!
There is construction around Exit 401, so please drive
safely and watch for the exit.
**Director Nominees**

**Gary Smith - District 12**
Gary Smith became a High West Energy member in 1978 and has served three years on the Board of Directors. While on the Board, Gary earned the Director Gold credential from NRECA which recognizes directors who have earned their CCD and BLC credentials, and are committed to continuing their education throughout their service on the board. Gary also represents High West Energy by serving on the Board of Directors for the Mid-West Electric Consumers Association. He retired from the Department of Defense and owned an irrigation repair and well service company. Gary served three tours of duty to Vietnam with the United States Navy. He later volunteered 10 years on the Laramie County Fair Board and 16 years with Laramie County Fire District 4. Gary and his wife, Lorraine have two grown children. Gary believes the challenges facing the industry are meeting the demand for power, and restrictions from the government and environmental agencies to grow the cooperative. He wishes to continue ensuring the delivery of reliable power and bring new ideas to the company. He seeks re-election to continue expanding the members’ knowledge of the cooperative and exploring alternative energy sources.

**Dan Acheson - District 15**
Dan Acheson has been a member of High West Energy since 1976 and has served more than 14 years on the Board of Directors. He currently owns and operates L.E.S. Realty, Co. in Kimball, Nebraska and is a member of the Eagles, University of Wyoming Alumni, and the Kimball/Banner County Chamber. He and his wife, Sherry, have three grown children and nine grandchildren. Dan believes that High West Energy can better serve its members by focusing on its rural roots, as well as focusing on cost savings. Dan thinks that the priority for High West Digital Solutions and High West Wiring is quality, time-efficient project completion, and serving those within the High West Energy territory first. He seeks your vote because of his experience serving on the Board of Directors, his honest character, and the privilege to serve those who live in District 15.

**Jim Taylor - District 12**
Jim Taylor has lived in Eastern Laramie County his whole adult life and became a member in 1998. He is an IT Infrastructure Engineer for TEK Systems and teaches at Laramie County Community College. Jim served in the United States Air Force from 1985-1992, followed by serving in the Wyoming Air National Guard as Information Systems Branch Chief from 1992-2006. After his military career he worked in the National Operations Security Center for the Air National Guard. He is the Past Master for Gate City Masonic Lodge in Pine Bluffs, and recently started a car club. Jim served as the Pine Bluffs Sportsmen’s Club trap league secretary for seven years. He also loves spending that time with his wife Paula, and two children, James and Daniek. He believes his farming and information technology security background will help High West Energy grow and better serve its members. Jim believes it is important to watch oil and other energy trends long-term, as well as diversify its services. Jim seeks your vote because of his strong community ties, well-rounded industry knowledge, and experiences in the technology field.

**Dan Acheson - District 15**
Dan Acheson has been a member of High West Energy since 1976 and has served more than 14 years on the Board of Directors. He currently owns and operates L.E.S. Realty, Co. in Kimball, Nebraska and is a member of the Eagles, University of Wyoming Alumni, and the Kimball/Banner County Chamber. He and his wife, Sherry, have three grown children and nine grandchildren. Dan believes that High West Energy can better serve its members by focusing on its rural roots, as well as focusing on cost savings. Dan thinks that the priority for High West Digital Solutions and High West Wiring is quality, time-efficient project completion, and serving those within the High West Energy territory first. He seeks your vote because of his experience serving on the Board of Directors, his honest character, and the privilege to serve those who live in District 15.

Rural Electric Company was founded on January 27, under the Rural Electrification Act of 1936 signed by President Franklin D. Roosevelt. The funding channeled through electric cooperatives, most of which still exist today. This act provided electricity to rural farming and ranching communities throughout the United States. The first power lines were energized within the service territory by 1940.

The ice storm that hit in April, left members in the Carpenter/Grover area without power for eight days. Over 1,000 poles snapped and left power lines on the ground. With the help of six neighboring Co-ops and two contract crews, power was restored to the area.

Rural Electric Company chose Potter, Nebraska as its first service center site. The building was purchased from a blacksmith in 1962, and the addition was added in the late 1980s. The Co-op headquarters moved to its current location in the mid-1980s. R.E.C. later added its second service center on South Greeley Highway in Cheyenne in the 1990s. In 2012, that service center moved to its current location at 3302 I-80 Service Road, near Sapp Brothers.

Rural Electric Company changed its name to High West Energy on June 2. Many Co-ops were recognized as ‘Rural Electric Company,’ which felt too generic.

High West Energy helped at the Extreme Makeover: Home Edition project, east of Cheyenne. The Co-op continued to experience growth.

The Co-op experienced significant growth throughout the 1940s-1950s. This picture is a membership certificate from 1956, generously brought in by a member from Albin, WY.

Highlights Over the Years

1937
Rural Electric Company was founded on January 27, under the Rural Electrification Act of 1936 signed by President Franklin D. Roosevelt. The funding channeled through electric cooperatives, most of which still exist today. This act provided electricity to rural farming and ranching communities throughout the United States. The first power lines were energized within the service territory by 1940.

1956
The Co-op experienced significant growth throughout the 1940s-1950s. This picture is a membership certificate from 1956, generously brought in by a member from Albin, WY.

1962
Rural Electric Company chose Potter, Nebraska as its first service center site. The building was purchased from a blacksmith in 1962, and the addition was added in the late 1980s. The Co-op headquarters moved to its current location in the mid-1980s. R.E.C. later added its second service center on South Greeley Highway in Cheyenne in the 1990s. In 2012, that service center moved to its current location at 3302 I-80 Service Road, near Sapp Brothers.

1999
Rural Electric Company changed its name to High West Energy on June 2. Many Co-ops were recognized as ‘Rural Electric Company,’ which felt too generic.

2001
The ice storm that hit in April, left members in the Carpenter/Grover area without power for eight days. Over 1,000 poles snapped and left power lines on the ground. With the help of six neighboring Co-ops and two contract crews, power was restored to the area.

2007
High West Energy celebrated its grand re-opening of the new addition to the east side of the building. The Co-op’s assets nearly doubled from 2011-2015.

2015
High West Energy plans to celebrate its 80th Birthday on June 22, 2017, with the membership at the High West Energy office in Pine Bluffs. Dinner will be served in conjunction with the annual meeting that evening. Come celebrate 80 years of service!

University of Wyoming
$500: Tri-State G&T

On behalf of High West Energy, Tri-State Generation & Transmission and Basin Electric Power Cooperative, we are pleased to announce the winners of our scholarships for the 2017-2018 school year.

Each applicant filled out an application that highlighted their strengths, activities and honors. They also wrote an essay that addressed the electric cooperative’s role in a community and how it specifically serves their hometown.

Recipients were chosen by a panel of judges from across the service territory, whom have a background in education and are members of the cooperative. Congratulations to all the recipients on your academic achievements!
We’ll see you at the Annual Meeting!
Thursday, June 22, 2017
4:30-6:30 Dinner & Craft Fair
6:30-8:00 Business Meeting & Prizes
